About Me

I'm an experienced Web App Developer who has worked for over 13 years with some of the UK's largest companies across multiple industries to generate quantifiable results and build the tools & services needed that have helped push clients to the top position in their markets.

I currently work as a developer creating bespoke plugins and features for large enterprise clients that have WordPress / WooCommerce based websites.

Work Experience

Developer
[Atomic Smash Ltd](#)
October 2019 - Present

Working as a PHP Developer on large enterprise level WordPress / WooCommerce websites developing bespoke plugins and site features working closely with the design team to deliver both continuous development and full-build projects.

Information Systems Manager
[Ascot Group \(Holdings\) Ltd/Purplex Marketing Ltd](#)
January 2015 - October 2019 (4 years and 8 months)

Primarily worked on Special Projects within the Purplex Web Services Team creating bespoke plugins, integrating API's, created a WordPress management app. Provided I.T. support for the group and maintained a custom built hosting infrastructure for over 200 websites.

Software Development Consultant
[Rock & Scissor Enterprises Limited](#)
March 2012 - January 2015 (2 years and 10 months)

Managed a small team of freelancers creating fully version-controlled dynamic web applications. Created an IoT temperature monitoring system for the largest holiday park in the South West of England leading to a reduction in food loss/wastage of over 300% per year.

Technology Development Manager
[Insight Data Ltd](#)
March 2007 - March 2012 (5 years)

Developed the first two versions of Salestracker helping to grow the company with annual growth rates of over 150% during a recession.

Customer Service Manager
[Dixons Carphone plc \(Southampton & Weston-super-Mare\)](#)
September 2001 - September 2008 (7 Years)

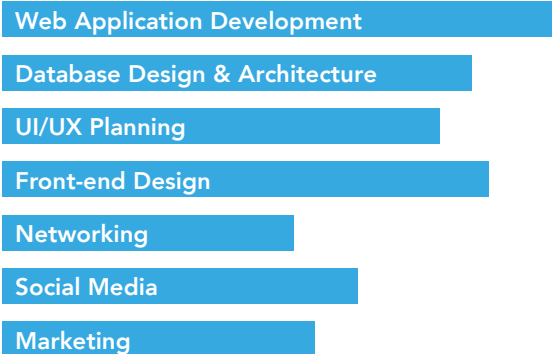

Education

Certificate of Higher Education in Business Information Technology
